

Plan Features and Highlights

Picture your financial future.

Thinking how your retirement picture may look? The Commonwealth of Virginia 457 and Cash Match Plans can help you focus on your goals. If you're not already saving, look at the opportunities you may be missing, including free money!

Meet Sarah: She earns \$2,000 a month and wants to save \$100 a month in the 457 Plan. Let's compare how much she would save before tax with the 457 Plan versus after tax (through a bank savings account, for example).

The Cash Match

As a salaried employee, Sarah will receive a cash match. Let's assume the match is \$20 per pay period on a semi-monthly basis. **That's an additional \$40 per month or \$480 per year contributed to her Cash Match Plan. Over 20 years, that money could grow to \$18,000!***

**Assumes cash match of \$40 each month earning six percent annual rate of return.*

Sarah's Paycheck Comparison

	Contributing to DCP Before Tax	Contributing After Tax
Gross Pay	\$2,000	\$2,000
Before-Tax Contributions to Plan	- 100	- 0
Taxable Pay	\$1,900	\$2,000
Estimated Income Tax Withholding from Pay	- 551	- 580
Take-Home Pay	\$1,349	\$1,420
After-Tax Contributions to Other Accounts	- 0	- 100
Spendable Pay	\$1,349	\$1,320
Before-Tax Advantage	\$29	None

By contributing before-tax in this Plan, Sarah has **\$29 more** to spend (or save) each month – **\$348 more per year**.

This hypothetical illustration assumes federal tax withholding of 25 percent, state & local tax withholding of four percent.

Benefits of Tax-Deferred Growth and Compounding

Let's continue and see how tax-deferred compounding can help Sarah save more money for retirement over time. Assume that Sarah contributes \$100 per month for 20 years to the 457 Plan, investing a total of \$24,000. She also receives the Cash Match of \$40 per month, which is another \$9,600, for a total investment of \$33,600.

Because Sarah's contributions are tax deferred, she saves money on taxes, meaning more of her money remains in her account working for her. After 20 years, assuming a six percent average annual return, Sarah's combined accounts could have grown to **nearly \$64,000!** It happens because any earnings in the Plans are reinvested—allowing those earnings to potentially generate more earnings.

Potential Account Growth Over the Long-Term

For illustrative purposes only. Assumes six percent annual rate of return and total monthly contributions of \$140 (\$100 from employee, plus \$40 from employer). The final combined account balance does not account for Plan fees or expenses, which would reflect lower net returns. Investment return and principal value will fluctuate, so when shares are redeemed, they may be worth more or less than original cost.

Bonus! Saver's Credit To encourage low- and moderate-income individuals to save more for the future, the government offers a tax credit for contributions. You may be eligible for a credit on your federal taxes equal to a percentage (up to 50 percent) of the first \$2,000 you invest in the Plan. The credit is available if your adjusted gross income (AGI) does not exceed \$57,500 if you are married and file a joint return; or \$28,750 if you are single or married and file a separate return. The actual amount of your credit is based on your tax filing status and adjusted gross income (AGI), as shown on right:

Tax credit	Joint return AGI	Single (other filers) AGI
50 percent	Less than \$34,500	Less than \$17,250
20 percent	\$34,501 - \$37,500	\$17,251 - \$18,750
10 percent	\$37,501 - \$57,500	\$18,751 - \$28,750
0 percent	Over \$57,500	Over \$28,750

In-service trustee-to-trustee transfer of assets from a governmental 457(b) plan to a governmental defined benefit plan for the purchase of permissible service credit or repayment of contributions and earnings that were previously refunded, causing forfeiture of service credit under the defined benefit plan, is allowed. For additional information and eligibility, call **1-VRS-DC-PLAN1 (1-877-327-5261)**. To use the option you must be approved to purchase service by your Defined Benefit Plan.

Employer contributions to the Cash Match Plan cannot be used to purchase VRS service credit. Monies in the Cash Match Plan rollover account may be rolled over to VRS to purchase approved service credit.

May I transfer or roll over my account from my former employer's plan into this Plan?

Yes. But only approved balances from other governmental 457(b) plans may be transferred into the Commonwealth's Deferred Compensation Plan.

At termination or retirement are there other contributions I can make to the Plans?

Participants terminating employment or retiring may also contribute their unused vacation, compensatory and sick leave payout (including disability credits) to the Commonwealth's Deferred Compensation Plan.

If you select the Partial Lump Sum Option (PLOS) for your VRS retirement, some or all of the lump-sum payment may also be rolled over to your cash match account. You may take a distribution from your rollover account while you are employed by the Commonwealth or a participating employer.

May I transfer or roll over my account if I leave employment with my current employer?

If you leave employment with your employer, you may roll over your account balance to an eligible retirement plan such as a 401(a), 401(k), 403(b), 457(b), IRA or Federal Employees Thrift Savings Plan if the plan accepts this type of rollover. However, an IRS penalty for withdrawals from these plans prior to age 59½ may apply.

This IRS penalty for early withdrawals does not apply to monies withdrawn from a 457 plan.

If you leave employment with your employer, you may roll over your account balance to an eligible retirement plan such as a 401(a), 401(k), 403(b), 457(b), traditional IRA or Federal Employees Thrift Savings Plan if the plan accepts this type of rollover. However, an IRS penalty for withdrawals from these plans prior to age 59½ may apply.

Note: Check with the plan that you are rolling into to ensure it accepts the rolled over monies.

Will I be forced to take a distribution from the Plan when I leave employment with the employer that provides the Plan?

No. You may leave the monies in the Plan and continue to manage your account. When you reach age 70½, a certain minimum distribution will be required if you are not still working for an employer that provides the Plan.

May I continue to make contributions to the Plan once I terminate employment with a sponsoring employer?

No. The contributions can only be made while you are employed by a sponsoring employer, including the Commonwealth of Virginia or one of the Virginia political subdivisions, school divisions or special authorities that adopted the Plan.
