- I. PAYMENTS THAT CAN AND CANNOT BE ROLLED OVER
- II. DIRECT ROLLOVER
- III. PAYMENT PAID TO YOU
- IV. SURVIVING SPOUSES, ALTERNATE PAYEES, AND OTHER BENEFICIARIES

I. PAYMENTS THAT CAN AND CANNOT BE ROLLED OVER

Payments from the Plan may be “eligible rollover distributions.” This means that they can be rolled over to a traditional IRA or to an eligible employer plan that accepts rollovers. Payments from a plan cannot be rolled over to a SIMPLE IRA or a Coverdell Education Savings Account. Your Plan administrator should be able to tell you what portion of your payment is an eligible rollover distribution.

After-tax Contributions. If you made after-tax contributions to the Plan, these contributions may be rolled into either a traditional IRA or to certain employer plans that accept rollovers of the after-tax contributions. The following rules apply:

- a. **Rollover into a Traditional IRA.** You can roll over your after-tax contributions to a traditional IRA either directly or indirectly. Your plan administrator should be able to tell you how much of your payment is the taxable portion and how much is the after-tax portion. If you roll over after-tax contributions to a traditional IRA, it is your responsibility to keep track of, and report to the Service on the applicable forms, the amount of these after-tax contributions. This will enable the nontaxable amount of any future distributions from the traditional IRA to be determined. Once you roll over your after-tax contributions to a traditional IRA, those amounts CANNOT later be rolled over to an employer plan.
- b. **Rollover into an Employer Plan.** You can roll over after-tax contributions from an employer plan that is qualified under Code section 401 (a) or a section 403(a) annuity plan to another such plan using a direct rollover if the other plan provides separate accounting for amounts rolled over, including separate account for the after-tax employee contributions and earning on those contributions. You CANNOT roll over after-tax contributions to a governmental 457(b) plan. If you want to roll over your after-tax contributions to an employer plan that accepts these rollovers, you can have the after-tax contributions paid to you first. You must instruct the Plan Administrator of this Plan to make a direct rollover on your behalf. Also, you cannot first roll over after-tax contributions to a traditional IRA and then roll over that amount into an employer plan.
- c. **Rollover into a Roth IRA.** Conversion of Non-Roth Amounts by Means of a Rollover into a Roth IRA — You may be eligible to roll over non-Roth amounts into a Roth IRA and thereby make a Roth “conversion.” You may not make such a conversion if you are not otherwise eligible to make a Roth conversion within a Roth IRA, which generally means you are not eligible if:* (1) your modified adjusted gross income for the year the distribution is made from the Plan exceeds \$100,000 or (2) you are married and lived with your spouse at some time during the taxable year and you filed a separate tax return. Any required minimum distribution you receive from an IRA or eligible retirement plan is disregarded for purposes of determining whether you are eligible to make a conversion to a Roth IRA. The amount of the conversion, minus any return of your tax basis, is taxable as ordinary income in the year the conversion occurs (the year the rollover distribution occurs).* The 10% penalty tax on early withdrawals does not apply to the conversion amount, but unless an exception applies, any withdrawal of conversion amounts from your Roth IRA within the five calendar year holding period beginning on the first day of the taxable year in which your first Roth IRA contributions were made would be subject to the 10% penalty tax on early distributions.

* The conversion eligibility rules currently are set to expire in 2010, at which point Roth conversions will be allowed without regard to income limits. For a conversion that occurs in 2010, you may be allowed to spread the tax impact over a two-year period.

* Once you have made a conversion to a Roth IRA, you cannot roll over the Roth IRA into another qualified plan (even if that plan has a Roth contribution feature).

The following types of payments cannot be rolled over:

Payments Spread over Long Periods. You cannot roll over a payment if it is part of a series of equal (or almost equal) payments that are made at least once a year and that will last for:

- your lifetime (or a period measured by your life expectancy), or
- your lifetime and your beneficiary’s lifetime (or a period measured by your joint life expectancies), or
- a period of 10 years or more.

Required Minimum Payments. Beginning when you reach age 70 ½ or retire, whichever is later, a certain portion of your payment cannot be rolled over because it is a “required minimum payment” that must be paid to you.

Unforeseeable Emergency Distributions. A distribution on account of an unforeseeable emergency cannot be rolled over.

Distributions of Excess Contributions. A distribution that is made because legal limits on certain contributions were exceeded cannot be rolled over.

II. DIRECT ROLLOVER

A DIRECT ROLLOVER is a direct payment of the amount of your Plan benefits to a traditional IRA or an eligible employer plan that will accept it. You can choose a DIRECT ROLLOVER of all or any portion of your payment that is an eligible rollover distribution, as described in Part I above. You are not taxed on any taxable portion of your payment for which you choose a DIRECT ROLLOVER until you later take it out of the traditional IRA or eligible

employer plan. In addition, no income tax withholding is required for any taxable portion of your Plan benefits for which you choose a DIRECT ROLLOVER. This Plan might not let you choose a DIRECT ROLLOVER if your distributions for the year are less than \$200.00.

DIRECT ROLLOVER to a Traditional IRA. You can open a traditional IRA to receive the direct rollover. If you choose to have your payment made directly to a traditional IRA, contact an IRA sponsor (usually a financial institution) to find out how to have your payment made in a direct rollover to a traditional IRA at that institution. If you are unsure of how to invest your money, you can temporarily establish a traditional IRA to move all or a part of your payment to another traditional IRA at a later date, without penalties or other limitations. See IRS Publication 590, Individual Retirement Arrangements, for more information on traditional IRAs (including limits on how often you can roll over between IRAs).

DIRECT ROLLOVER to a Plan. If you are employed by a new employer that has an eligible employer plan, and you want a direct rollover to that plan, ask the plan administrator of that plan whether it will accept your rollover. An eligible employer plan is not legally required to accept a rollover. Even if your new employer's plan does not accept a rollover, you can choose a DIRECT ROLLOVER to a traditional IRA. If the employer plan accepts your rollover, the plan may provide restrictions on the circumstances under which you may later receive a distribution of the rollover amount or may require spousal consent to any subsequent distribution. Check with the plan administrator of that plan before making your decision.

DIRECT ROLLOVER to a Roth IRA. Conversion of Non-Roth Amounts by Means of a Rollover into a Roth IRA — You may be eligible to roll over non-Roth amounts into a Roth IRA and thereby make a Roth “conversion.” You may not make such a conversion if you are not otherwise eligible to make a Roth conversion within a Roth IRA, which generally means you are not eligible if: * (1) your modified adjusted gross income for the year the distribution is made from the Plan exceeds \$100,000 or (2) you are married and lived with your spouse at some time during the taxable year and you filed a separate tax return. Any required minimum distribution you receive from an IRA or eligible retirement plan is disregarded for purposes of determining whether you are eligible to make a conversion to a Roth IRA. The amount of the conversion, minus any return of your tax basis, is taxable as ordinary income in the year the conversion occurs (the year the rollover distribution occurs).* The 10% penalty tax on early withdrawals does not apply to the conversion amount, but unless an exception applies, any withdrawal of conversion amounts from your Roth IRA within the five calendar year holding period beginning on the first day of the taxable year in which your first Roth IRA contributions were made would be subject to the 10% penalty tax on early distributions.

* The conversion eligibility rules currently are set to expire in 2010, at which point Roth conversions will be allowed without regard to income limits. For a conversion that occurs in 2010, you may be allowed to spread the tax impact over a two-year period.

* Once you have made a conversion to a Roth IRA, you cannot roll over the Roth IRA into another qualified plan (even if that plan has a Roth contribution feature).

DIRECT ROLLOVER of a Series of Payments. If you receive a payment that can be rolled over to a traditional IRA or an eligible employer plan that will accept it, and it is paid in a series of payments for less than 10 years, your choice to make or not make a DIRECT ROLLOVER for a payment will apply to all later payments in the series until you change your election. You are free to change your election for any later payment in the series.

Change in Tax Treatment Resulting from a DIRECT ROLLOVER. The tax treatment of any payment from the eligible employer plan or traditional IRA receiving your DIRECT ROLLOVER might be different than if you received your benefit in a taxable distribution directly from the Plan. See the sections below entitled, “Additional 10% Tax May Apply to Certain Distributions.”

III. PAYMENT PAID TO YOU

If your payment can be rolled over (see Part I above) and the payment is made to you in cash, it is subject to 20% federal income tax withholding on the taxable portion (state tax withholding may also apply). The payment is taxed in the year you receive it unless, within 60 days, you roll it over to a traditional IRA or an eligible employer plan that accepts rollovers. If you do not roll it over, special tax rules may apply.

Income Tax Withholding:

Mandatory Withholding. If any portion of your payment can be rolled over under Part I above and you do not elect to make a DIRECT ROLLOVER, the Plan is required by law to withhold 20% of the taxable amount. This amount is sent to the IRS as federal income tax withholding. For example, if you can roll over a taxable payment of \$10,000.00, only \$8,000.00 will be paid to you because the Plan must withhold \$2,000.00 as income tax. However, when you prepare your income tax return for the year, unless you make a rollover within 60 days (see “Sixty-Day Rollover Option” below), you must report the full \$10,000.00 as a taxable payment from the Plan. You must report the \$2,000.00 as tax withheld, and it will be credited against any income tax you owe for the year. There will be no income tax withholding if your payments for the year are less than \$200.00.

Voluntary Withholding. If any portion of your payment is taxable but cannot be rolled over under Part I above, the mandatory withholding rules described above do not apply. In this case, you may elect not to have withholding apply to that portion. If you do nothing, an amount will be taken out of this portion of your payment for federal income tax withholding. To elect out of withholding, ask the Plan Administrator for the election form and related information.

Sixty-Day Rollover Option. If you receive a payment that can be rolled over under Part I above, you can still decide to roll over all or part of it to a traditional IRA or to an eligible employer plan that accepts rollovers. If you decide to roll over, *you must contribute the amount of the payment you received to a traditional IRA or eligible employer plan within 60 days after you receive the payment.* The portion of your payment that is rolled over will not be taxed until you take it out of the traditional IRA or the eligible employer plan.

You can roll over up to 100% of your payment that can be rolled over under Part I above, including an amount equal to the 20% of the taxable portion that was withheld. If you choose to roll over 100%, you must find other money within the 60-day period to contribute to the traditional IRA or the eligible employer plan, to replace the 20% that was withheld. On the other hand, if you roll over only the 80% of the taxable portion that you received, you will be taxed on the 20% that was withheld.

Example: Your payment that can be rolled over under Part I above is \$10,000.00, and you choose to have it paid to you. You will receive \$8,000.00, and \$2,000.00 will be sent to the IRS as income tax withholding. Within 60 days after receiving the \$8,000.00, you may roll over the entire \$10,000.00 to a traditional IRA or an eligible employer plan. To do this, you roll over the \$8,000.00 you received from the Plan, and you will have to find \$2,000.00 from other sources (your savings, a loan, etc.). In this case, the entire \$10,000.00 is not taxed until you take it out of the traditional IRA or an eligible employer plan. If you roll over the entire \$10,000.00, when you file your income tax return you may get a refund of part or all of the \$2,000.00 withheld.

If, on the other hand, you roll over only \$8,000.00, the \$2,000.00 you did not roll over is taxed in the year it was withheld. When you file your income tax return, you may get a refund of part of the \$2,000.00 withheld. (However, any refund is likely to be larger if you roll over the entire \$10,000.00.)

Additional 10% Tax May Apply to Certain Distributions. Distributions from this Plan are generally not subject to the additional 10% tax that applies to pre-age-59 1/2 distributions from other types of plans. However, any distribution from the Plan that is attributable to an amount you rolled over to the Plan (adjusted for investment returns) from another type of eligible employer plan or IRA amount is subject to the additional 10% tax if it is distributed to you before you reach age 59 1/2, unless an exception applies.

Exceptions to the additional 10% tax generally include (1) payments that are paid as equal (or almost equal) payments over your life or life expectancy (or your and your beneficiary's lives or life expectancies), (2) payments that are paid from an eligible employer plan after you separate from service with your employer during or after the year you reach age 55, (3) payments that are paid because you retire due to disability, (4) payments that are paid directly to the government to satisfy a federal tax levy, (5) payments that are paid to an alternate payee under a qualified domestic relations order, or (6) payments that do not exceed the amount of your deductible medical expenses. These exceptions may be different for distributions from a traditional IRA. See IRS Form 5329 for more information on the additional 10% tax.

The additional 10% tax does not apply to distributions from the Plan or any other governmental 457(b) plan, except to the extent the distribution is attributable to an amount you rolled over to the governmental 457(b) plan (adjusted for investment returns) from another type of eligible employer plan or IRA.

In addition, any amount rolled over from the Plan to another type of eligible employer plan or to a traditional IRA will be subject to the additional 10% tax if it is distributed to you before you reach age 59 1/2, unless an exception applies.

IV. SURVIVING SPOUSES, ALTERNATE PAYEES, AND OTHER BENEFICIARIES

In general, the rules summarized above that apply to payments to employees also apply to payments to surviving spouses of employees and to spouses or former spouses who are "alternate payees." You are an alternate payee if your interest in the Plan results from a "qualified domestic relations order," which is an order issued by a court, usually in connection with a divorce or legal separation.

If you are a surviving spouse or an alternate payee, you may choose to have a payment that can be rolled over as described in Part I above, paid in a DIRECT ROLLOVER to a traditional or Roth IRA or to an eligible employer plan or paid to you. If you have the payment paid to you, you can keep it or roll it over yourself to a traditional IRA or to an eligible employer plan. Thus, you have the same choices as the employee.

If you are a surviving spouse, an alternate payee, or another beneficiary, your payment is generally not subject to the additional 10% tax described in Part III above, even if you are younger than age 59 1/2.

How To Obtain Additional Information

This notice summarizes only the federal (not state or local) tax rules that might apply to your payment. The rules described above are complex and contain many conditions and exceptions that are not included in this notice. Therefore, you may want to consult with the Plan Administrator or a professional tax advisor before you take a payment of your benefits from your Plan. Also, you can find more specific information on the tax treatment of payments from qualified employer plans in IRS Publication 575, Pension and Annuity Income, and IRS Publication 590, Individual Retirement Arrangements. These publications are available from your local IRS office, on the IRS's Internet Web Site at www.irs.gov, or by calling 1-800-TAX-FORMS.
